LIST OF THE WOUNDED AT MIDDLEBURG.

The Dismissal of Colonel L. A. Whitely.

Special Dispatch to The N. Y. Tribune. Washington, Wednesday, June 24, 1863.

THE SITUATION AT VICKSBURG. The Republican says: We speak authoritively when we say there is no ground for the fear expressed in some of the morning papers that the Rebel Gen, Johnston is likely to attack Gen, Grant's rear. Gen. Grant telegraphs that he has no fear of Johnston whatever. The latter is at Yazoo City with a small force, but can approach no nearer to Vicksburg than the former is pleased to permit.

WHAT THE REBELS EXPECTED TO DO WITH

THE ATLANTA. It is stated in a private letter received here from an officer of the Weehawken that the Atlanta cos one million of dollars, was supplied for a long cruise, of the success of which in raising the blockade all along the coast, including the recapture of Port Royal, Norfolk and Portemonth, and the destruction of the Washington Navy Yard, the most extravagant anticipations had been entertained by the Rebels. The Atlanta bore the new Rebel flag, which, under the law of the Rebel Congress, was not to be displayed till the first of July. The Atlanta had the honor to be the first Rebel vessel to strike the new banner of treason to the Stars and Stripes. The writer adds: " If we were stronger than the Atlanta I think it likely we were more humane also, for we were as kind to her officers as to brothers. One of them said to the captain of the Oleander tug, that brought the captured prisoners to Port Royaluse us better than we should have used you. We

FIFTEEN-INCH GUNS. Admiral Dahlgren went to New-York in the 11 e'clock train to-day, en route, as is believed here, for the command of which Admiral Du Pont has been relieved. It is proper that the credit of adopting the 15-inch guns, as a part of the armament of our iron-clade, should be given, now that the recent contest with the Atlanta has proved their efficiency, to the man who assumed the responsibility of their manufacture at a time when they were supposed to be failures. Assistant-Secretary Fox, in a letter dated May 28, after remarking that he cannot say what considerations influenced the Secretary of the Navy in his determination, adds: "Rear-Admiral Dahlgren did not advise it (the 15-inch gun). F. ti Whatever responsibility attaches to those who strengously urged its manufacture belongs to me, and not to the Admiral."

THE DISMISSAL OF L. A. WHITELY.

The precise facts in the case of L. A. Whitely, chief correspondent of The Herald, to which allusion was made in a paragraph in to-day's TRIBUNE, are, as we learn officially, as follows: The rule of the Treasury Department forbids the appointment to clerkships of gentlemen engaged as regular correspondents of daily papers, because the duties of the

ositions are believed to be incompatible.

The spirit of the rule, of course, forbids the retention in office of a clerk who engages as such correspondent. Col. Whitely, after being appointed to a clerkship, became a regular correspondent of The New-York Herald. The rule was not immediately applied to him, however, for two reasons-first, beause he was one of those citizens of Maryland who manifested a most loyal attachmen to the Union in the dangerous days of April, 1861, and, secondly, because the Secretary was unwilling to seem espable of reserting the attacks of The Herald upon himself by the removal for that cause of one of its correspondents. The rule, therefore, was not enforced in the instance of Col. Whitely for many months, nor until it seemed both to the Sixth Anditor and to the Secretary inconsistent with the proper regulations of the Department to allow it to remain longer in abayance. It was under these circumstances that Col. Whitely, who had been sometime previously informed of the existence of this rule, was advised by the Sixth Auditor that its application to his case could no longer be deferred He therefore tendered his resignation, to take effect early in July, and it has been or will be accepted. This statement, believed to be correct in all respects, is exact, so far as the Secretary's action is concerned. No such conversation as that communicated to THE TRIBUNE, upon the authority of a clerk in the same office, took place.

ILLNESS OF GENERAL CANBY. Brig.-General E. R. S. Canby, acting Assistant ecretary of War, is absent sick, and is not expected to return to daty for some days. In his absence his duties are performed by Major Thomas M. Vincent. Ase't-Adjutant-General.

A note has been forwarded by Mr. Benjamin, the Rebel Secretary of State at Richmond, to the agents of the Confederacy abroad, with instructions to communicate it to the principal Powers of Europe. The contents of this note are substantially these: interests and the wishes of the Confederate Government, it is said, are to cultivate amicable relations with all the Powers of the Continent, and to ffer them a generous participation in all the benefits of a free commercial, industrial, and social inter- Light, about four miles distant, 15 feet out of water course with the South. hem to avoid obeying fustructions proceeding from a country with which we are at war, and bearing sometimes traces of an influence hostile to us and t our independence.

In order to put an end to this annualous state of

things, says the note, and to regulate a very irregular position, the Confederate Government has decided that henceforward Foreign Consuls would only be recognized in the capacity of naval agenta, whose duties should be simply confined to the transactions resulting from the arrival and clearthat in doing this, the Confederate Government does

not divest the Foreign Consule of any of their legitimate duties, but prevents them only from exercising certain other assumed diplomatic functions which the new condition in which they were placed had rendered necessary.

The note concludes by stating that foreign cabinets must not look upon this measure as indicating an intention on the part of the Confederate Government to resent in any way the refusal of its recognition by them, but simply as a step dictated by prudence. Foreign consuls in the South receiving their instructions from a country where they are submitted to influences adverse to the maintenance of the independence of the Confederacy, it has been deemed altogether wise and politic to put an end to these influences by limiting the functions of the office through which it was exercised, and to assert thereby the right and power of the Confederacy to settle her own affairs. It has also been decided, says the note, that the right of protection of foreign residents will be exercised by the Confederate Government and its agents through the Confederacy, until foreign powers put an end to this mnomalous state of things by receiving it in the councils of nations.

This note. I am informed, has been sent to Messre. Mason and Slidell, with instructions to communicate it to all the European Cabinets.
